

Best Disease Management Company - India

A company that has been gaining increased notoriety and repute over the years that it has been in operation, Kartavya Healthcon is committed to helping patients across India to manage the pain and challenges that come hand in hand with living with a chronic illness. It knows the struggles that its clients face, and is dedicated to helping them reach affordable and accessible healthcare, becoming the backbone of the medical care industry in its region.

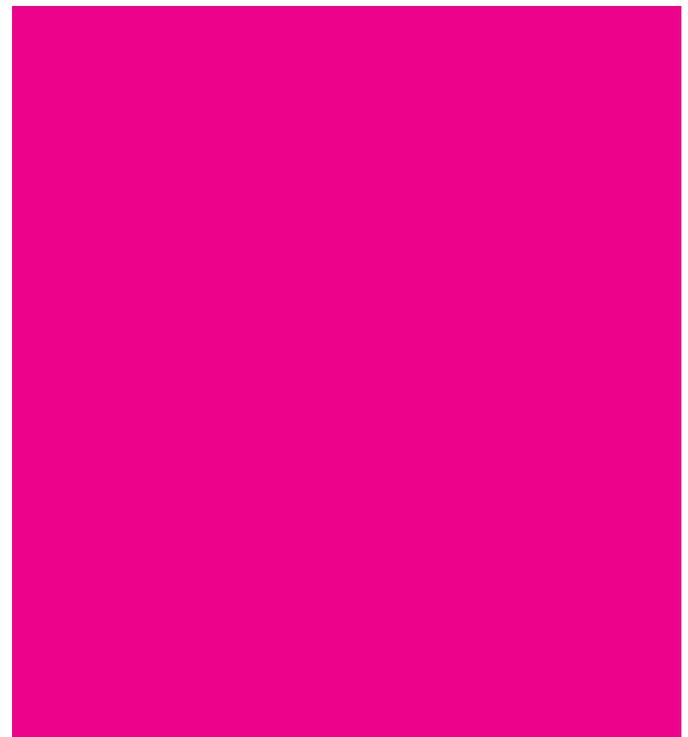

Kartavya Healthcon was established in June of 2008, and quickly became one of the foremost disease management companies in India. With a corporate office in Mumbai and operating now out of 21 different cities around the country, it has come a very long way, and cultivated a long list of loyal customers as a result; each of which it is dedicated to helping. Fundamentally, Kartavya Healthcon's core goal is to help provide disease and pain management services for those living with chronic diseases and illnesses, allowing them to continue to live life to the fullest despite the condition that makes for added difficulties with things most people take for granted.

In addition, it operates with a significant level of technical prowess in order to do this. With the medical industry moving forward into the future at an ever-increasing speed, with new innovations and developments coming out on a daily basis, Kartavya Healthcon is dedicated to staying abreast of these and

deploying only the best of the best when working out the best solutions for its patients. This allows it to ensure its disease management is effective and efficient, with each staff member working with truly admirable levels of empathic and sensitivity from the very first meeting.

Crucially, this allows Kartavya Healthcon to show how the client is at the forefront of its staff's priority list at all times. Being such a front-runner in care and disease management, it is aware that for many of its patients, there is no 'cure all'; instead, it focuses on helping them to mitigate the pain and adapt their day to day lives in order to make things significantly easier, aiding Pharma companies in the fields of disease management and patient retention. Due to the diligence and duty of care that makes up this company's lifeblood, each of its services have been thusly lauded as exemplary by its clientele.

These include everything from patient adherence to patient assistance services,

as well as field counselling, patient retention, awareness camps, patient screening, drug delivery, supply chain management, medical content writing and branding, and more. Moreover, each of its stakeholders have come to know it as a truly trustworthy and reliable cornerstone of the medical chronic care sector, working with partners such as pharmaceutical businesses, physicians, pharmacists, nurses, and patients, all through its single platform and collaborative practice models.

This has allowed Kartavya Healthcon to grow in notoriety and repute since its inception, and to this day it has screened

about 3,50,000 high risk Hepatitis B patients across India with its camps and community programmes. By working in this way, spreading awareness, education, and knowledge regarding good standards of care and how to manage one's pain and physical health, it is keeping to its exemplary mission of increasing the affordability and accessibility of medical information and care in the country it calls home, encouraging people to see that even when living with chronic illness, they can live their lives to the fullest.
